LOUIS CHANU | SCULPTURES 2021

From massive steel sculptures that radiate light to changing sculptures made of plant carbon resin. Artist Louis Chanu's fascination with three-dimensional material and reflective light are reflected in his sculptures. Themes range from organic human figures to aviation to abstraction.

We are honored to be able to exhibit the latest sculptures by artist Louis Chanu at our Basel office in collaboration with the Youngblood Foundation. The Youngblood Foundation is an arts and culture funding organization that provides an opportunity for artists of all genres to pursue their passion.

His latest sculptures can be found in the attached brochure
