Tel.: +41 22 365 20 70

Web: www.solutionsandfunds.com

Competent Authority: Autorité fédérale de surveillance des marchés financiers FINMA

Creation date: 31.10.2023

What is this product?

The Upright Umbrella - Schweizer Aktienperlen is a contractual fund of the "securities fund" type under Swiss law.

The investment objective of the sub-fund is mainly to generate long-term capital appreciation for investors by investing in a diversified portfolio of equities of Swiss companies, preferably with above-average and/or increasing dividend yields. Investments are made exclusively in Swiss francs.

The sub-fund is suitable for investors with a (medium to) long-term investment horizon (5 years and more) who primarily seek growth of the capital invested and can accept relatively strong fluctuations and a longer-lasting decline in the net asset value of the fund units. They are familiar with the main risks of an equity investment.

What are the risks and what could I get in return?

Risk Indicator

← Typically lower profit
← Lower risk

Typically higher profit →
Higher risk →

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The risk indicator is a guide to the level of risk of this fund compared to other products. It shows how likely it is that the product will lose money because of movements in the markets. On a scale of 1 to 7, we have classified this product in the above risk class. Be aware of currency risk if your base currency is different from the product currency. You may receive payments in a different currency, so the final return you receive depends on the exchange rate between the two currencies.

Investors should note that the product may be exposed to other risks such as operational, counterparty, political and legal risks that are not mentioned in the risk indicator. As this product does not provide protection against market fluctuations, you may lose all or part of your investment.

Performance Scenarios

Investment: CHF 10'000.00		Vorzeitige Auflösung nach einem Jahr	Auflösung nach 5 Jahren
Szenarios			
Pessimistic	Amount payed out avg. yield per year	CHF 6'955.22 -30.45%	CHF 6'506.73 -8.24%
Medium	Amount payed out avg. yield per year	CHF 10'144.73 1.45%	CHF 11'550.93 2.93%
Optimistic	Amount payed out avg. yield per year	CHF 15'120.07 51.20%	CHF 18'217.63 12.75%

This table shows the amount you could get back over the next 5 years (recommended holding period - RHP) under different scenarios, assuming that you invest 10'000 in the fund currency. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

The figures shown include all the costs of the fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if Solutions & Funds SA is unable to pay out?

Investors who have invested in this product will not suffer any financial loss in the event of a default by Solutions & Funds SA as the sub-fund is considered a separate legal entity with separately managed assets.

What are the costs?

Costs over time

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the fund itself, for two different holding periods. They include potential early exit penalties. The figures assume you invest 10'000 in the fund currency. The figures are estimates and may change in the future. The person selling you or advising you about this fund may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Investment: CHF 10'000.00 Scenarios	Early cancellation after one year	Cancellation by 5 years
Total costs	CHF 238.22	CHF 1'045.42
Reduction in yield (RIY) per year	2.22%	1.42%

This table shows the impact on return per year			
One-time costs	Subscription fee	0.00%	Impact of the costs you have to pay when you make your investment (the maximum costs are shown, you may possibly pay less).
	Redemption fee	0.00%	Impact of the costs you have to pay when you exit your investment (the maximum costs are shown, you may possibly pay less).
Running costs	Transactions costs	0.07%	Impact of the costs of buying and selling underlying instruments for the product.
	Other ongoing costs	1.16%	Impact of costs deducted annually for investment management.
	Performance costs	0.00%	The impact of the performance fee. This is retained from your investment if the product outperforms its benchmark. There are no performance fees on this product.

Distribution costs

There were no distribution fees on this fund.

How long should I hold it and can I take money out early?

Recommended holding period in years: 5

In accordance with the investment objective described above, the product is designed for a long-term investment horizon. This is an open-ended product. The investor can sell the investment daily (on working days).

How can I complain?

If you have any complaints about the product, please contact the person who recommended the product to you or the fund management company directly: Solutions & Funds SA, Promenade de Castellane 4, 1110 Morges, e-mail: info@solutionsandfunds.com.
